

MOTION BY SUPERVISOR DON KNABE

October 13, 2009

The Chief Executive Office is recommending that a number of Commissions and Board either be eliminated or consolidated in order to save costs in staff support and resources.

The Information Services Commission (ISC) was originally created back in 1991 to “support the improvement of the efficiency and effectiveness of the County’s data processing and telecommunications operations.”

While some of the original language in the enabling ordinance for the ISC may be outdated and obsolete, I believe that the ISC ordinance should be updated and reviewed to reflect today’s technology standards and challenges. In addition, I believe that the ISC should be a valuable resource to the Chief Information Officer on matters pertaining to current Los Angeles County technology initiatives.

**I, THEREFORE, MOVE THAT** the Board of Supervisors direct the Chief Information Officer/Chief Executive Officer to report back to the Board in 30 days on suggested modifications to the Information Services Commission Ordinance and ways to better engage the Commission on technology issues affecting Los Angeles County.
